## REPORT OF THE PUBLIC HEALTH NURSE

The following report covers the period from January 1, 1944, through December 31, 1944:

*Home Nursing Visits:*

Maternity: 31 visits to expectant mothers.  
65 visits to new mothers.  
5 deliveries attended.

Bedside Nursing Care: 17 visits to give some form of nursing service.

*Infant and Pre-School Service:*

12 children from infancy to school age were given a medical examination.  
2 children were vaccinated against smallpox.  
6 children were immunized against diphtheria.  
7 consultations with the Nutritionist to discuss the diets and food habits of the children.  
146 health supervision visits were made.

*School Service:*

54 children were examined by a local physician.  
13 children were vaccinated against smallpox.  
21 children were immunized against diphtheria.

52 children were given a hearing test with the audiometer.  
87 health supervision visits were made.

Respectfully submitted,

CAROLINE SAHLIN, R.N.,  
*Public Health Nurse.*

## REPORT OF SUPERINTENDENT OF SCHOOLS

The school enrollment in Starksboro this year is 107 compared with 114 last year. However, the number of pupils at the Robinson School is so great that it is very difficult to give them proper training. Under present conditions we try to give pupils individual help where it is needed, so that they may progress. We should be able to refer to our educational system as one in which there is provision for all the children of all the people.

Elementary education is not purely a matter of acquiring information, but an experience which brings changes in the thinking and in the attitudes of boys and girls. The teachers must realize that each child is an individual, who needs individual guidance. Our educational requirements are becoming more and more difficult. We have already reached a point where youths and adults are faced with the requirement that they must be world citizens. Our education will need to include an understanding of people everywhere. It will also be necessary for us to become efficient in the ability to get along with others who possess different philosophies of life. Failure to meet the needs of our children now will mean difficulties for our country during the years ahead. Education has always been considered essential to national welfare.

Although it is now hard to get equipment, we should consider adequate filing space for each school. Much useful material in the form of pamphlets, clippings and pictures is now received by our teachers. The material must be stored in a suitable place to be readily available. Supplementary, reference and library books are now far below the requirements for any standard school. At least fifty cents per pupil should be spent for such books each year in addition to the provision for regular textbooks. Pupils and teachers cannot be expected to work without tools. The library books should be selected from the approved list for school libraries.

No group of citizens in our country bears a greater responsibility than our teachers who are charged with guiding the growth of children and youth. The teaching profession has never faced a greater demand for leadership and service. Failure to meet the

needs of our children now will mean difficulties for our country during the years ahead.

JOHN L. SELDEN,  
*Superintendent.*

## OLD AGE ASSISTANCE DEPARTMENT

120 STATE STREET  
MONTPELIER, VERMONT

For the information of your taxpayers the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$3,451.50 during the year January 1, 1944 to December 31, 1944.

The number of recipients in December, 1944, was 14.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance or to increase all who were found eligible after investigation. The cost of living has increased so much that about every case needs to be increased that is not now getting the maximum. The cooperation of Overseers in extending temporary aid and supplementary medical services has been very helpful.

The administrative expenses of this department have risen slightly during the biennial period but the administrative review of the Social Security Board emphasizes that the total administrative cost per case per month is among the lowest in the country.

The advice and counsel of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

WILLIAM L. SEWARD,  
*Director.*

## WAR LOAN CAMPAIGNS

*To the People of Vermont:*

During 1944 the War Finance Committee for Vermont conducted the Fourth, Fifth and Sixth War Loan Campaigns, all eminently successful—successful not alone in the amount of money raised but successful in that it enabled more than one hundred thousand Vermonters to save and at the same time furnish their government with funds to conduct the war.

In these three campaigns Vermonters purchased \$112,600,000 worth of Bonds of all kinds: \$20,450,000 in Series E Bonds and \$8,626,000 in Series F and G Bonds, and the remainder in the so-called Treasury issues.

To sell this large amount of Bonds required a good organization and a cooperative response on the part of the people. We had both.

Vermont's sales army in each of the three campaigns consisted of about four thousand men and women. People who gave their time and effort to make these campaigns a success; to them, as well as to the people of Vermont, I am very grateful.

As we assemble in town meeting this year with the realization that the management of our political and civic affairs is in our own hands, let us turn our thoughts to those who are fighting to preserve these rights and liberties. Let us resolve that there may be no lessening in our efforts to back them to the limit that the war may be shortened and that their return to their homes may be hastened.

FRED C. MARTIN,  
*Executive Manager,*  
*War Finance Committee.*
